**MILWAUKEE
COUNTY**

COMMITMENT TO EQUITY

Healthy Homes is rooted in Milwaukee County's commitment to using data to drive decision-making. Program participants are identified and prioritized using the Evaluating Vulnerability and Equity (EVE) Model, which guides equitable COVID-19 vaccine deployment strategies across the county.

Healthy Homes, Milwaukee County's at-home COVID-19 vaccination program, is designed to meet the needs of individuals who have difficulty leaving their homes.

WHO QUALIFIES?

Any Milwaukee County resident who has difficulty leaving their home is eligible, including people who need the help of another person or medical equipment to leave their home and those whose medical provider believes their health or illness may worsen if they leave their home.

WHAT COVID-19 VACCINE WILL BE ADMINISTERED DURING AT-HOME VISITS?

Vaccine preference and availability will be determined in partnership with each individual and an approved vaccinator.

WHO WILL ADMINISTER THE VACCINE?

Trained medical professionals will make a home visit at the appointed time and administer the preferred vaccine to all interested members of the household. All vaccinators have undergone background checks.

HOW LONG WILL THE APPOINTMENT TAKE?

Vaccinations take approximately 30 minutes, including a 15-minute observation period.

WHAT INFORMATION WILL I NEED TO PROVIDE TO SCHEDULE AN AT-HOME VISIT?

You will be asked basic identifying and demographic information, including name and birth date. You will also be asked to provide your address and any details about how to contact you when we arrive, if applicable.

WHAT INFORMATION WILL BE REQUIRED DURING THE VACCINATION APPOINTMENT?

When vaccinators arrive for your at-home appointment, they will ask your name and date of birth. Your vaccinator will also walk you through a standard consent form and inquire about any history of allergic reactions. They will also explain the procedure and provide some information about the observation period.

CAN OTHERS IN MY HOUSEHOLD BE VACCINATED DURING MY APPOINTMENT TIME?

Yes. If additional members in your household would like to receive an at-home vaccine, please discuss this with your scheduler when you set up your at-home visit.
